# UltraBalance™ Solutions

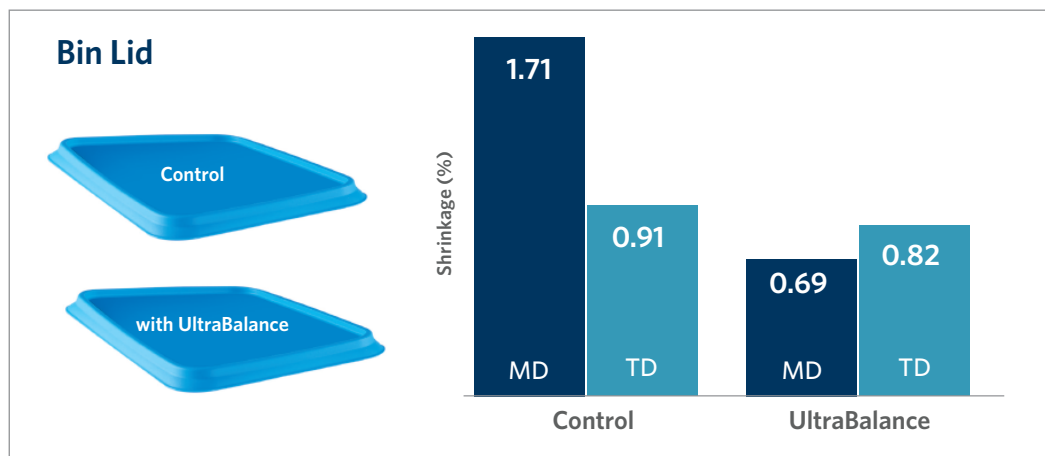

For improved physical properties in polyethylene

## Isotropic Shrinkage | Stable Dimensions Quality & Less Waste | Faster, Trouble Free Production

When processed, polyethylene is prone to warpage, resulting in compromised part quality and challenges in manufacturing processes.

UltraBalance Solutions concentrates (natural or combined with color) can help overcome these challenges, resulting in high quality parts with stable dimensions.

UltraBalance Solutions products enables lower and balanced shrinkage, resulting in warpage reduction and productivity enhancement.

### Typical Applications

- Carts
- Crates
- Totes
- Pallets
- Bins

Please contact your Milliken representative for any additional information.

PLEASE NOTE: As each customer's use of our product may be different, information we provide, including without limitation, recommendations, test results, samples, care/labeling/processing instructions or marketing advice, is provided in good faith but without warranty and without accepting any responsibility/liability. Each customer must test and be responsible for its own specific use, further processing, labeling, marketing, etc. All sales are exclusively subject to our standard terms of sale posted at [www.milliken.com/terms](http://www.milliken.com/terms) (all additional/different terms are rejected) unless explicitly agreed otherwise in a signed writing.
